(a) Study 1 design

Consider Alice and Barbara, who work in the same field.
Alice and Barbara are in a (*symmetric* / *asymmetric*) relationship.
[or no relationship info]

This week, when they met for coffee, **Alice** bought and brought coffee to the meeting for both of them. How likely is it that...

Reciprocity:	Precedent:	No interaction:
The next time they meet for coffee, they expect that **Barbara** will buy and bring coffee to the meeting for both of them.	The next time they meet for coffee, they expect that **Alice** will buy and bring coffee to the meeting for both of them.	Alice and Barbara do not expect to meet for coffee in the future.
Extremely unlikely (1) - Extremely likely (7)	Extremely unlikely (1) - Extremely likely (7)	Extremely unlikely (1) - Extremely likely (7)
