

(a) Study 5 and 6 design

You and Minu are in a relationship where Minu has (*equal* / *more* / *less*) power, status, or influence than you. Some days, a pair of people is assigned to check on the fields furthest from the village, which means leaving for a long walk early in the morning. This morning, you are paired with Minu, and you need to figure out where to meet them.

[First time response]
You and Minu are paired for the first time. What do you do?
Go to the place closer to your house / Go to the place closer to your partner's house

You chose to (go to the place closer to your house / go to the place closer to your partner's house). Minu chose to go to the place closer to their house. The interaction was (*smooth* / *awkward*).

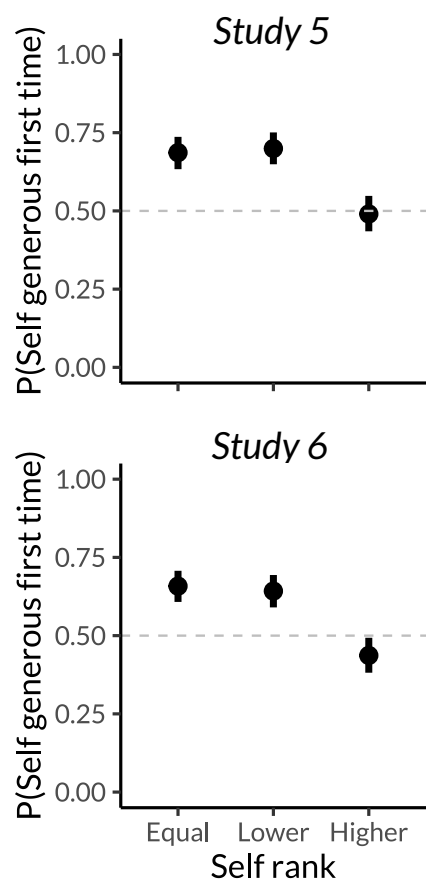

[Second time response]
You and Minu are paired for the second time. What do you do?
Go to the place closer to your house / Go to the place closer to your partner's house

(b) Payoff structure

	Self		
	Receive	Give	
Study 5	1 / 1	0 / 0	Partner
	0 / 0	1 / 1	
	Self		
	Receive	Give	
Study 6	2 / 1	0 / 0	Partner
	0 / 0	1 / 2	

6 scenarios

(c) First time choices

(d) Second time after coordination

(e) Second time after failed
